

Highlights

- Strong sense of ownership
- Leadership & mentoring
- Team player with ability to work under minimal supervision
- Strong technical, analytical & problem-solving skills
- Passion for high quality code

Key Skills

- Java
- JSON, HTTP, TLS
- REST, GraphQL, Golang
- SQL, NoSQL
- JavaScript, jQuery, HTML5
- Bootstrap, d3.js
- Microservices
- AWS Cloud
- Kubernetes
- Jenkins
- Helm charts
- Hashicorp Vault
- Hashicorp Terraform
- Git
- Linux
- Shell Scripting
- Serverless functions

Certifications

- AWS Cloud Practitioner
- GSSP Java

Education

Bachelor of Engineering
Satyabhama Institute of Science & Technology
Chennai, India 2002-2006

Summary

- Results oriented software engineer with over 16 years of experience in design, development and deployment of highly scalable, fault-tolerant software applications using both client/server and modern cloud native technologies.
- Experienced in developing highly scalable & performant APIs using java, REST, Kubernetes, Docker, MySQL, and AWS services.
- 10+ years of working with remote and cross-functional teams

Experience

10/2018 – Present Software Principal Engineer, Secureworks Inc, Atlanta

- Leading the effort towards CTP microservice migration to Taegis
- Lead the team's initiatives towards AWS Cloud Migration
- Lead API Development for microservices utilized by IDS/IPS systems.
- Lead efforts to be compliant on software export tracking
- Streamlined deployment of several microservices to AWS Cloud by implementing Jenkins libraries
- Integrated microservices with API Gateway using serverless functions

04/2017 – 10/2018 Software Senior Engineer, Secureworks Inc, Atlanta

- Lead Vuln Services Migration from C++ to Java
- Designed and developed Threat Intelligence for customer portal
- Implemented ratings for TI Articles and library documents
- Implemented spring security impersonation for portal users
- Rewrote TI Lucene indexing to improve performance of TI Search

05/2013 – 04/2017 Software Staff Engineer, Secureworks Inc, Atlanta

- Implemented TI Global search, feeding UI Widgets from RSS feed.
- Built caching of ct-prov contacts, clients, and locations to improve performance in intel-batch to improve email delivery
- Integrated email processing of TI articles with Notification systems
- Implemented retrieval of counter measure data from Sanctum and blobstore servers
- Modularized monolithic code structures for better maintenance

05/2013 – 05/2013 IT Analyst, TCS Ltd, Atlanta for The Home Depot, Inc.

- Designed and developed Common Ordering System to interact with Sterling Order Management Systems and Enhanced Special Services
- Designed and developed Buy Online Pickup in Store, eCatalog, Asset protection, Perpetual Accuracy, Transfer of merchandise between stores

06/2006 – 11/2008 Assistant Systems Engineer, TCS Ltd, Kolkata, India

- Implemented solutions for New organizational hierarchical changes for Somerfield stores, adding business partners, Gap analysis tool
- Reduced batch operation runs from 90 minutes to 5mins
- Responsible for data Modeling and developing queries/stored procedures with proper optimization and performance tuning.
